Academic Appointments

University of Florida, Gainesville, FL — 2022 –

Associate Professor, Department of Industrial and Systems Engineering
Affiliate Associate Professor of Finance, Warrington College of Business
Associate Director, Center for Applied Optimization

Georgia State University, Atlanta, GA — 2018 -2022

Associate Professor, Department of Risk Management and Insurance

University of Miami, Coral Gables, FL — 2015 - 2018

Assistant Professor, Mathematics Department

Swiss Finance Institute - EPFL, Lausanne, Switzerland — 2011 - 2015

Postdoc, Swissquote Chair in Quantitative Finance

Education

Ph.D. in Applied Mathematics, École Normale Supérieure - INRIA, Paris — 2007 - 2011

Dissertation Title: "Epidemics and Percolation in Random Networks"
Advisors: Marc Lelarge and François Baccelli

M.S. in Probability and Finance, Paris VI University — 2006 - 2007

(joint École Polytechnique, École Normale Supérieure, ENSAE)

École Polytechnique, Palaiseau, France — 2003 - 2006

B.S. (Diplôme d'Ingénieur) in Applied Mathematics and Computer Science

Visiting Appointments

INRIA Paris, MATHRISK Team *(Invited professor)* — June-July 2021-2022, 2024-2026

IMSI, University of Chicago, USA *(Invited member)* — March-May 2022

`Semester on "Decision Making and Uncertainty"`

IPAM, UCLA, California, USA *(Invited member)* — March-April 2015

`Semester on "Broad Perspectives and New Directions in Financial Mathematics"`

Isaac Newton Institute, Cambridge, UK *(Invited member)* — August-December 2014

`Semester on "Systemic Risk: Mathematical Modeling and Interdisciplinary Approaches"`

MSRI, Berkeley, California, USA *(Research member)* — January-May 2012

`Semester on "Random Spatial Processes"`

Cornell University, Ithaca, NY *(Visiting scholar)*	December 2011, 2013
Microsoft Research, Redmond, WA, USA *(Visiting scholar)*	April-May 2011
Max-Planck Institut, Saarbrücken, Germany *(Visiting scholar)*	January-March 2011
Imperial College, London, UK *(Visiting scholar)*	April-July 2008
Finance Concepts, Paris, France *(Consulting)*	2007-2008
HSBC, Paris, France *(Quant)*	April-September 2007

Research Interests

Quantitative Finance and Risk Management

Systemic Risk and Economic Networks

Artificial Intelligence and Machine Learning in Finance

Stochastic Control, Games, and Multi-Agent Systems

Random Structures and Complex Networks

FinTech, Automated Market Makers, and Market Design

Teaching

Decision Making Under Uncertainty (OEM/MBA course), UF	Spring 2025–2027
Engineering Economy (300+ students), UF	Fall 2022–2027
Introduction to Financial Technology, UF	Spring 2024
Advanced Engineering Economy, UF	Fall 2023
Financial Engineering, GSU	Spring 2019–2022
Machine Learning in Actuarial Science and Risk Management, GSU	Fall 2020–2022
Risk Assessment Methods, GSU	Spring 2021–2022
Financial Risk and Regulation, GSU	Spring 2019–2020
Risk Modeling, GSU	Fall 2019
Advanced Financial Risk Management, GSU	Fall 2018
Machine Learning in Quantitative Finance, UM	Spring 2018
Stochastic Calculus with Application to Finance, UM	Spring 2018
Introduction to Mathematical Finance, UM	Fall 2017
Quantitative Risk Management, UM	Fall 2017

Introduction to Probability and Statistics, UM	Summer A 2017
Discrete Mathematics, UM	Spring 2017
Introduction to Mathematical Statistics, UM	Spring 2016–2017
Introduction to Probability Theory, UM	Fall 2015–2016
Exercises in Probability & Statistics and Risk Management, EPFL	2012–2014
Epidemic Modeling & Complex Networks, École Polytechnique	Spring 2013

Publications

Refereed journal papers

[J1] Cardinality-Constrained Portfolio Optimization with Clustering
(with Amirmohammad Ebrahimi and Hongcheng Liu)
Annals of Operations Research, forthcoming.

[J2] Markovian Equilibria of Stochastic Graphon Games with Jumps
(with Zhongyuan Cao and Agnès Sulem)
Pure and Applied Functional Analysis, forthcoming.

[J3] Ruin-Dependent Bivariate Stochastic Fluid Processes
(with Andreea Minca and Oscar Peralta)
Advances in Applied Probability, forthcoming.

[J4] Stochastic Graphon Games with Jumps and Approximate Nash Equilibria
(with Zhongyuan Cao and Agnès Sulem)
SIAM Journal on Control and Optimization, 64(3): 1859-1888, 2026.

[J5] Decentralized Prediction Markets and Sports Books
(with Maxim Bichuch and Zachary Feinstein)
Mathematical Finance, 36 (3), 465-480, 2026.

[J6] Central Limit Theorems for Price-Mediated Contagion in Stochastic Financial Networks
(with Zhongyuan Cao and Agnès Sulem)
SIAM Journal on Financial Mathematics, 16 (3), 1058-1103, 2025.

[J7] Graphon Mean-Field Backward Stochastic Differential Equations with Jumps and Associated Dynamic Risk Measures
(with Zhongyuan Cao and Agnès Sulem)
Finance and Stochastics, 29, 1139-1194, 2025.

[J8] Fire Sales, Default Cascades and Complex Financial Networks
(with Zhongyuan Cao and Agnès Sulem)
Mathematics and Financial Economics, 19, 225-260, 2025.

[J9] Limit Theorems for Default Contagion and Systemic Risk
(with Zhongyuan Cao and Agnès Sulem)
Mathematics of Operations Research, 49 (4), 2652-2683, 2024.

[J10] Blockchain Adoption and Optimal Reinsurance Design
(with Romain Deguest, Engin Iyidogan and Andreea Minca)
European Journal of Operational Research, 318 (1), 341-353, 2024.

[J11] Clustering Heterogeneous Financial Networks
(with Yudong Chen, Andreea Minca and Xin Qian)
Mathematical Finance, 34 (2), 425-466, 2024.

[J12] Social Distancing Game and Insurance Investment in a Pandemic
(with Andreea Minca)
Annals of Operations Research, 336, 2009-2036, 2024.

[J13] Bootstrap Percolation in Inhomogeneous Random Graphs
(with Nikolaos Fountoulakis and Konstantinos Panagiotou)
Advances in Applied Probability, 56(1): 156-204, 2024.

[J14] Contagion Risks and Security Investment in Complex Networks
Mathematics and Financial Economics, 17, 247-283, 2023.

[J15] Decentralized Payment Clearing using Blockchain and Optimal Bidding
(with Maxim Bichuch and Zachary Feinstein)
European Journal of Operational Research, 309 (1), 409-420, 2023.

[J16] A Central Limit Theorem for Diffusion in Sparse Random Graphs
(with Erhan Bayraktar and Suman Chakraborty)
Journal of Statistical Physics, 190 (3), 57, 2023.

[J17] Optimal Network Compression
(with Zachary Feinstein)
European Journal of Operational Research, 306 (3), 1439-1455, 2023.

[J18] Epidemic Spreading and Equilibrium Social Distancing in Heterogeneous Networks
(with Andreea Minca)
Dynamic Games and Applications, 12 (1), 258-287, 2022.

[J19] A Dynamic Contagion Risk Model with Recovery Features
(with Andreea Minca and Agnès Sulem)
Mathematics of Operations Research, 47 (2), 1412-1442, 2022.

[J20] Systemic Risk in Networks with a Central Node
(with Damir Filipović and Andreea Minca)
SIAM Journal on Financial Mathematics, 11(1): 60–98, 2020.

[J21] Optimal Equity Infusions in Financial Networks
(with Andreea Minca and Agnès Sulem)
Journal of Financial Stability, 31: 1–17, 2017.

[J22] Resilience to Contagion in Financial Networks
(with Rama Cont and Andreea Minca)
Mathematical Finance, 26 (2): 329–365, 2016.

[J23] Uniqueness of Equilibrium in a Payment System with Liquidation Costs
(with Damir Filipović and Andreea Minca)
Operations Research Letters, 44(1):1–5, 2016.

[J24] To Fully Net or Not to Net: Adverse Effects of Partial Multilateral Netting
(with Damir Filipović and Andreea Minca)
Operations Research, 64(5): 1135–1142, 2016.

[J25] Inhomogeneous Financial Networks and Contagious Links
(with Andreea Minca)
Operations Research, 64(5): 1109–1120, 2016.

[J26] Control of Interbank Contagion under Partial Information
(with Andreea Minca and Agnès Sulem)
SIAM Journal on Financial Mathematics, 6(1): 1195–1219, 2015.

[J27] The Diameter of Weighted Random Graphs
(with Marc Lelarge)
Annals of Applied Probability, 25(3): 1686–1727, 2015.

[J28] Flooding in Weighted Sparse Random Graphs
(with Moez Draief and Marc Lelarge)
SIAM Journal on Discrete Mathematics, 27(1): 1–26, 2013.

[J29] Bootstrap Percolation in Power-Law Random Graphs
(with Nikolaos Fountoulakis)
Journal of Statistical Physics, 155 (1): 72–92, 2014.

[J30] Shortest-Weight Paths in Random Regular Graphs
(with Yuval Peres)
SIAM Journal on Discrete Mathematics, 28 (2): 656–672, 2014.

[J31] Stress Testing the Resilience of Financial Networks
(with Rama Cont and Andreea Minca)
International Journal of Theoretical and Applied Finance, 15 (1), 2012.

[J32] Upper Deviations for Split Times of Branching Processes
(with Marc Lelarge)
Journal of Applied Probability, 49(4): 1134–1143, 2012.

[J33] Bootstrap Percolation in Living Neural Networks
Journal of Statistical Physics, 141: 459–475, 2010.

[J34] Bootstrap Percolation and Diffusion in Random Graphs with Given Vertex Degrees
Electronic Journal of Combinatorics, 17: #R25, 2010.

Working papers (Preprints available upon request)

[W1] Dynamics of Cascading Losses in Locally Tree-Like Networks
(with Erfan Salavati)
Invited revision: Mathematics of Operations Research.

[W2] Brownian Motion on the Fubini Extension Space and Applications
(with Nina Amini, Sofiane Chalal and Gaoyue Guo)
Invited revision: Stochastic Processes and their Applications.

[W3] Ruin Probabilities for Risk Processes in Stochastic Networks
(with Zhongyuan Cao, Andreea Minca and Agnès Sulem)
Invited revision: Finance and Stochastics.

[W4] Oracle-Parametrized Constant Function Market Makers: From Price Feeds to Pricing Rules
(with Zachary Feinstein)

[W5] Strategic Attacks, Network Losses and Cascading Failures
(with Kaijiang Wu and Jorge Sefair)

[W6] Extended Graphon Mean Field Games in Discrete Time
(with Zhongyuan Cao, Gökçe Dayanikli, Mathieu Laurière, Kexin Shao and Agnès Sulem)

[W7] Graphon Quantum Filtering Systems
(with Nina Amini, Sofiane Chalal and Gaoyue Guo)

[W8] Duration-Dependent Stochastic Fluid Processes and Solar Energy Revenue Modeling
(with Andreea Minca and Oscar Peralta)

[W9] Local Weak Limits for Equilibrium and Risk in Economic Networks
(with Zhecheng Wu)

[W10] Optimal Stabilization of Supply Chain Networks
(with Amirmohammad Ebrahimi)

[W11] Optimizing Interventions in Economic Networks from Local Samples
(with Zhecheng Wu)

[W12] High-Dimensional Portfolio Optimization under Heavy-Tailed Returns
(with Amirmohammad Ebrahimi and Hongcheng Liu)

Research Grants

- Risk Methodology for Supply Chain Networks, PI, with A. Minca, NSF EAGER, 2025–2027
- AI Compliance Officer, Co-PI, with Z. Feinstein (PI) and I. Florescu, NSF CRAFT (Center for Research toward Advancing Financial Technologies), 2024–2025
- Multi-Agent Reinforcement Learning in Large Financial Networks with Heterogeneous Interactions, with A. Sulem, Research Award by the Institut Europlace de Finance, 2023
- Optimal Distributed Stochastic Control and Application to the Management of Electrical Grid Flexibility, with A. Sulem (PI), Research Award by the Gaspard Monge Program for Optimization, Operations Research and their Interactions with Data Science, 2025–2026
- Dynamics and Stability of Complex Financial Networks, J. Mack Robinson College of Business, Summer Research Grant, 2022
- Technologies to Support Global Supply Chains Insurance and Reinsurance, Co-PI, with A. Minca (PI), AXA Research Fund Award, 2020–2022

Conferences & Invited Talks

1. INFORMS Conference on Financial Engineering and Fintech, November 2027
2. INFORMS Annual Meeting, November 2026
3. IEEE Conference on Computational Intelligence in Financial Engineering and Economics, Tokyo, September 2026
4. Colloquium, Mathematics Department, University of Florida, August 2026
5. Actuarial Science and Financial Mathematics seminar, University of Waterloo, April 2026.
6. AMS Spring Southeastern Sectional Meeting, March 2026
7. INFORMS Annual Meeting, October 2025
8. MRC Workshop on Dynamics on Networks, University of Pittsburgh, April 2025
9. Colloquium, Mathematics Department, Carnegie Mellon University, January 2025
10. Office of Financial Research, US Treasury, October 2024
11. AMS Spring Southeastern Sectional Meeting, Tallahassee, March 2024
12. Finance, Insurance and Real Estate Department, University of Florida, September 2023
13. SIAM Conference on Financial Mathematics and Engineering, Philadelphia, June 2023
14. AMS Spring Southeastern Sectional Meeting, Atlanta, GA, March 2023
15. XXI Latin Ibero-American Conference on Operations Research (CLAIO 2022), Buenos Aires, Argentina, December 2022
16. Mathematics Colloquium, Florida State University, October 2022
17. Workshop on Systemic Risk and Stress Testing, IMSI Chicago, April 2022
18. Department of Industrial and Systems Engineering, University of Florida, February 2022
19. INFORMS Annual Meeting, Anaheim, October 2021
20. SIAM Conference on Financial Mathematics and Engineering, June 2021
21. 8th International Conference on Complex Networks and Applications, Lisbon, December 2019
22. INFORMS Annual Meeting, Seattle, October 2019
23. Conference on Advanced Mathematical Methods in Finance, Paris, June 2019
24. SIAM Conference on Financial Mathematics and Engineering, Toronto, June 2019
25. Financial/Actuarial Mathematics Seminar, University of Michigan, Ann Arbor, March 2019
26. Combinatorics Seminar, Georgia Tech, Atlanta, February 2019

27. Discrete Math Seminar, Georgia State University, Atlanta, October 2018
28. AMS Spring Southeastern Sectional Meeting, Nashville, April 2018
29. Department of Risk Management & Insurance, Georgia State University, February 2018
30. Department of Decision Sciences, HEC Montréal, December 2017
31. Workshop on Measurement and Control of Systemic Risk, CRM, Montréal, September 2017
32. Stochastic Analysis and Stochastic Finance Seminar, TU Berlin, Germany, July 2017
33. SIAM Southeastern Atlantic Section Conference, Florida State University, March 2017
34. Winter School on Systemic Risk, Lausanne, January 2017
35. Reunion Conference for IPAM's Financial Mathematics, Lake Arrowhead, December 2016
36. SIAM Conference on Financial Mathematics and Engineering, Austin, November 2016
37. International Conference on Monte Carlo Techniques, Paris, July 2016
38. 1st Eastern Conference on Mathematical Finance, WPI, Worcester, March 2016
39. XII Simposio de Probabilidad y Procesos Estocásticos, Mérida, November 2015
40. Workshop on Random Walks on Random Graphs and Applications, Eindhoven, April 2015
41. Workshop on Systemic Risk and Financial Networks, IPAM, UCLA, March 2015
42. ORIE Colloquium at Cornell University, March 2015
43. Mathematics Colloquia at University of Miami, February 2015
44. ORFE Colloquia at Princeton University, February 2015
45. Institute for Statistics and Mathematics at WU Vienna, January 2015
46. SIAM Conference on Financial Mathematics and Engineering, Chicago, November 2014
47. INFORMS Annual Meeting, San Francisco, November 2014
48. Workshop on Systemic Risk: Models and Mechanisms, Cambridge, UK, August 2014
49. Workshop on Random Graphs, Nice, France, May 2014
50. Bachelier Colloquium on Mathematical Finance, Métabief, France, January 2014
51. Applied Mathematics Seminar, Cornell University, Ithaca, December 2013
52. 29th European Meeting of Statisticians, Budapest, July 2013
53. 17th INFORMS Applied Probability Conference, Costa Rica, July 2013
54. Conference on Indices of Riskiness and Risk Measures, Zurich, March 2013
55. Mathematical Finance Seminar, Université Paris 6, February 2013
56. Probability Seminar, École Normale Supérieure de Lyon, January 2013
57. Research in Options, Buzios, Rio de Janeiro, December 2012
58. Probability Seminar, EPFL, Lausanne, October 2012
59. Latsis Symposium on Economics on the Move, ETH Zurich, September 2012
60. SIAM Conference on Financial Mathematics and Engineering, Minneapolis, July 2012
61. Mathematical Finance Seminar, École Polytechnique, February 2012
62. Probability Seminar, Cornell University, Ithaca, December 2011
63. Workshop on Econophysics of Systemic Risks and Network Dynamics, Kolkata, October 2011
64. 16th INFORMS Applied Probability Conference, Stockholm, Sweden, July 2011
65. 7th International Congress on Industrial and Applied Mathematics, Vancouver, July 2011
66. Probability Seminar, University of Washington, Seattle, May 2011
67. Probability Seminar, Stanford University, May 2011

68. SIAM Workshop on Analytic Algorithmics and Combinatorics, San Francisco, January 2011
69. Max-Planck-Institut für Informatik, Saarbrücken, Germany, September 2010
70. Bachelier Finance Society 6th World Congress, Toronto, June 2010

Advised PhD Students

- Zhecheng Wu (at University of Florida), 2025–
- Amirmohammad Ebrahimi (at University of Florida), 2023-2027
  Data-Driven Optimization in Financial and Economic Systems
- Kaijiang Wu (co-advised with Jorge Sefair at University of Florida), 2023-2027
  Optimization Models and Algorithms for Scheduling and Cascading Network Disruptions
- Carlos Nunez (co-advised with Ajay Subramanian at Georgia State University), 2020-2022:
  General Equilibrium Models in Production Networks
- Prerna Mishra (co-advised with Alireza Aghasi at Georgia State University), 2020-2022:
  Financial Networks and Contagion: A Deep Learning Framework
- Zhongyuan Cao (co-advised with Agnès Sulem at INRIA Paris), 2020-2023:
  Systemic Risk, Complex Financial Networks and Graphon Mean Field Interacting Systems

Advised MS Project Students

- Theo Boyer (2025)
- Luisa Munoz (2025)
- Tolga Koc (2025)
- Jevon Franklin (2025)
- Golbarg Nazari (2023)
- Michael Smith (2023)
- Jordan Restrepo (2023)
- Aaron Marquez (2023)
- William Jennings (2023)
- Hector Alvarado Barreto (2021)
- Zhongyuan Cao (2020)

Undergraduate Research Supervision

- Leah Weir (2026)
- Ishaan Desai (2026)
- Ivan Yuk (2026)
- Vincent A. DAngelo (2025)

Member of Dissertation Committee

- Yuliang ZHANG (2024): "Financial Contagion and Instability", London School of Economics
- Shokoufeh Pourshahabi (2024): "Quantifying Economic Vulnerabilities Induced by Interdependent Networks", University of Florida
